Bi.Vehicle

Bike carrying vehicle
on line of **SKI LIFT**

The product's assets

- Ideal concept for old ski lifts like « water drop » POMA for a maximum debit
- Bike carrying vehicle adapted for 2 or 3 bikes depending on the size of the seats

- Universal bike carrier, reusable in case of replacement of the ski lift line
- No portage on loading and unloading
- For « handyshare » and monocycle bikes
- For bikes from 20 to 29 inches

Competitive concept

- Optimized price for each project
- Scalable investment
- Sale, rental for events, rental with « buying option »

Secure concept

- Easy and efficient hanging: it's the bike's weight that shuts the clip
- Identical size to vehicles in place
- No risk of accidental bike fall

Evolving concept

Garnish

Wheels

Gaz cylinder
